LENA ROSARIO

lsrosario5.lr@gmail.com | (720)-292-9403 | Boulder, CO | LinkedIn - Lena Rosario

EDUCATION

University of Colorado Boulder, College of Engineering and Applied Science — Expected May 2027
Master of Science in Mechanical Engineering

- Leadership & Management Certificate (Expected May 2027)

University of Colorado Boulder, College of Engineering and Applied Science — May 2026
Bachelor of Science in Mechanical Engineering, cum laude

- Overall GPA: 3.7; Dean's List: 2022/2023, 2023/2024, 2024/2025, 2025/2026
- Engineering, Ethics & Society Herbst Program Fellow – Sustainability Study (2025/2026)

University College Dublin, Ireland, *Study Abroad*, College of Engineering & Architecture — Jan 2025 – May 2025

- Relevant Coursework: Mechanical Engineering Design I, Global Environmental Change

WORK EXPERIENCE

Integrated Water Services, Remote — June 2026 – Present
Engineering Intern

- Review submittals and conduct research to develop implementation plans for new projects
- Mark up and revise engineering drawings using AutoCAD and Civil 3D to reflect design corrections and updates
- Conduct site visits and prepare post visit engineering write-ups to document field conditions

Denver Water, Denver, CO — June 2025 – December 2025
Mechanical Engineering Intern

- Developed a hydraulic model using EES to calculate head loss through reservoir outlet works and determine flow rate into a treatment plant, informing how long a reservoir could reliably meet water demand
- Performed a heat transfer calculation using EES, accounting for conduction, radiation, and convection, to determine the size of heater needed for an HPU oil reservoir
- Wrote 2 final project summaries explaining calculations and results
- Cross-referenced 20+ engineering construction drawings to verify current system configurations

PROJECT EXPERIENCE

Senior Design – Los Alamos National Laboratory Hot Tap, Boulder, CO — August 2025 – May 2026
Logistics Manager, Design Engineer

- Contributing to the design and fabrication of a device to access the internal environment of a 1/8" diameter pipe as part of a multi-stakeholder capstone project
- Coordinate logistics, scheduling, and communication across project stakeholders to keep milestones on track
- Fabricated and assembled components using machining tools; performed iterative testing and validation
- Perform preliminary design calculations to evaluate and narrow down design concepts

CERTIFICATIONS

- Fundamentals of Engineering (FE) Exam, Mechanical — January 2026
- SOLIDWORKS CAD Design Associate (CSWA) — December 2024

TECHNICAL SKILLS

Fabrication: SolidWorks, Fusion 360, AutoCAD, Civil3D, PCB Design (Altium)

Modeling/Programming: EES, MATLAB, Excel VBA, Python, Bluebeam

Manufacturing: Electric Circuitry and Soldering, Operation of Lathes and Mills, GD&T, 3D Printing, Laser Cutting

Field Work: Active construction site safety; experienced operating equipment in lab and industrial environments

AFFILIATIONS & INTERESTS

- BEWiT: Business and Engineering Women in Technology — August 2022 – May 2024
- Interests: Backcountry skiing, backpacking, hiking, running, crocheting, cooking, world traveling
